Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants' method of producing a spirofluorenol compound defined by formula (1) is unobvious over the prior art of record because the prior art of record does not teach or suggest preparing a spirofluorenol as presently claimed, wherein the hydroxyl group of the fluorenone, defined by the present formula (2), is first protected by a substituted silyl group (wherein the substituents bonded to the silicon atom have a sum of 5 to 12 carbon atoms) before being coupled to the organometallic compound of formula (3). All claims (1-7) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
